I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I do not want the government to limit my choices concerning compounded prescriptions that have been made based on an individual's needs. This individual compounding is not available from commercial pharmaceutical manufacturers and if the M.O.U. is drafted many women like myself will not be able to get the medication that has helped them live normal lives.
